› Bring your life

Whether it's exploring spectacular nature in the great outdoors or travelling the world with family and friends, we all have a passion for enjoying an active life.

At Thule, we share your desire to spend more time enjoying our passions - which means less time worrying about how to bring all the stuff we need. For more than 75 years, we have been totally focused on developing smart, stylish products that are environmentally sound, high quality, safe, and easy to use. All so you can bring the things you care most about.

Whatever your passion, whatever your pursuit.
Wherever you're going, whatever you're bringing.
With Thule, you're free to live your active life to the full.

➤ One step further

No matter how many mountains you have climbed, miles you have biked, slopes you have skied, or places you've seen, there are always new adventures and new things to experience.

For 75 years, we have been there to help you bring gear for your next adventure on your car, from your home to the trailhead or shore. Over the last few years, we have extended the choice of products to carry your gear one step further, developing bike cases, backpacks, and sport duffel bags. All the time staying true to what we do best: high-quality products that have smart solutions, are easy to use, and look good.

Book your tickets, pack your bags and head off on new exciting adventures. Safe, easy, and in style.

Backpacking and Travel Backpacks

Thule Landmark

When the journey is the destination

When you need the organization of luggage and the comfortable carry of a trekking pack, the Thule Landmark delivers. A suitcase-style opening and internal compression straps allow you to easily pack and retrieve your gear, knowing everything will stay securely in place. Since carrying comfort is paramount to adventure travel, the Thule Landmark is designed with gender-specific fits and a suspension system to carry the pack across countries and continents with ease. The streamlined design eliminates unnecessary, dangling straps and provides tuckaway options or a backpanel cover to avoid damage in overhead bins, cargo compartments and luggage carousels.

Travel Smart

Since adventure travel should be focused on spontaneity and making memories, the Thule Landmark is designed with innovative features to keep your gear and identity protected at all times. Passive locking systems on the main compartment and the SafeZone prevent pickpockets from gaining quick access and lockable zippers deter theft when in transit or staying in hostels. A hidden CashStash pocket provides a place to discretely store money, a passport or important travel documents so you always have peace of mind that your identity and currency are secure. Additionally, an integrated sternum strap whistle on the main pack can easily be removed and used on the add-on daypack for increased safety on any outing.

Backpacking and Travel Backpacks

Thule Landmark 70L

An extended-travel adventure backpack with a detachable daypack, built-in safety features and a backpanel cover to prevent wear and tear.

Protect and organize a phone, sunglasses, cords and small valuables in the SafeZone compartment. Keep money and a passport safe from pickpockets in the covert CashStash compartment hidden under the SafeZone

Enjoy a hands-free, balanced and secure carry by attaching the add-on daypack to the front of the shoulder straps

Deter theft with passive locking systems on the SafeZone and main compartment as well as lockable zippers and zipper pulls (locks sold separately)

Belongings are held securely in place and organized with internal compression straps and mesh storage pockets. Designed as a checked piece of luggage to support longer travel excursions

Securely store a water bottle and other small items in the zippered side pocket

Navigate day trips with the removable 20L add-on daypack complete with 15" MacBook® storage, a breathable backpanel, mesh storage pockets and a covert CashStash pocket for money and personal items

Easily move the sternum strap whistle from the main pack to the daypack for an added level of safety on any outing

Prevent wear and tear with a zippered cover to protect the backpanel, shoulder straps and hipbelt when bag is not being worn

Thule Landmark 60L

A travel pack ready for several months of passport-stamped adventures with a detachable daypack, built-in safety features and a women's specific fit for ultimate comfort.

FEATURES

- Protect your valuables in the SafeZone compartment and keep money and a passport safe from pickpockets in the covert CashStash compartment
- Removable 20L add-on daypack with 15" MacBook® storage and a breathable backpanel. The daypack can be carried on the front for a hands-free, balanced and secure carry. Shoulder straps and hipbelt can be tucked away when not in use
- Passive locking systems and lockable zipper pulls (locks sold separately) deter from theft. Keep belongings in place and organized with internal compression straps and mesh storage pockets
- Securely store a water bottle and other small items in the zippered side pocket
- Designed to be used as a carry-on when the add-on daypack is carried as a personal item
- Move the whistle to the daypack for an added level of safety

Thule Landmark 40L

Explore the world with a conveniently-sized, carry-on adventure backpack.

FEATURES

- Protect your valuables in the SafeZone compartment and keep money and a passport safe from pickpockets in the covert CashStash compartment
- Passive locking systems and lockable zipper pulls (locks sold separately) deter from theft. Keep belongings in place and organized with internal compression straps and mesh storage pockets
- Protect up to a 15" MacBook® and 12.9" tablet in dedicated storage compartment
- Securely store a water bottle and other small items in the zippered side pocket
- Designed as a carry-on compliant piece for most airlines (Check with your airline before travel). Shoulder straps and hipbelt can be tucked away when not in use
- Easily attach a carabiner and other items onto the pack with external lash points
- Built-in whistle for additional travel safety

Backpacking and Travel Backpacks

Thule Guidepost

Everyone is different ...

With the Thule Guidepost series, we focus on what's important in the wild: ease of use, durability, and the most comfort thanks to a perfect fit.

Comfortable load thanks to a perfect fit

Carrying heavy loads comfortably over long distances, the key is to transfer the load of the pack to your waist and legs. The rigid yet compact TransHub suspension system has an aluminum stay connected to a firm padded hipbelt ensuring a great load transfer.

A comfortable pack should fit your body and distribute the load and pressure optimally. That's why the Thule Guidepost has up to 270 configurations to ensure a perfect fit for you.

1. Gender-specific design
2. Torso length adjustments (15 cm)
3. Shoulder strap adjustments
4. Multiple hip belt options

Easy to use so you can focus on your journey

Ease of use, adjustability, quick access, and clever ways to organize your gear are signs of a backpack developed by true outdoor people. Among the many smart solutions is the removable lid that you can use as a backpack for side trips.

Long trek? Short hike? Rely on your Thule pack

We've made our Thule Guidepost backpacks with the highest quality materials, putting them through rigorous testing both in our labs and in the real world.

Add to your Thule Guidepost

Thule VersaClick Accessory Pouch

A roomy and versatile pouch that provides convenient access for everything from water bottles to sunglasses.

Thule VersaClick Water Bottle Sleeve

For the user who wants hassle free access to their water bottle.

Backpacking and Travel Backpacks

Thule Guidepost

Customizable trekking pack with a perfect fit.

Have two packs in one when you remove the lid and transform it into a spacious 28L summit backpack

Easily access the pack's contents through a large zip side access panel

Angled pockets on either side of the bag make it easy to retrieve water bottles and hydrate on the go

Customizable hipbelt compatible with interchangeable VersaClick accessories (waterproof rolltop pocket included; other accessories sold separately)

Stow hiking poles or ice axes with two attachment loops

Gear stays dry during storms with high-visibility, removable rain cover

Cords are neatly managed between your device in your hipbelt pocket and your mobile charger in the internal PowerPocket

Easily customizable for a perfect fit with 15cm/6in of torso adjustability and a QuickFit shoulder harness that allows for 3 different shoulder strap width settings

Keep cool and comfortable with a breathable back panel that allows air to circulate around your back while padded support protects critical contact points

Enables natural gait and improves balance with a pivoting hipbelt that allows the pack to move with you

Create a more comfortable carry through the Transhub suspension system and reinforced hipbelt that effortlessly transfers the pack's load to your hips

Backpacking and Travel Backpacks

Thule Versant

Light in weight but heavy on features

The Versant Series strikes the perfect balance in offering a lightweight backpacking pack that doesn't skimp on features that matter most.

A comfortable carry through a perfect fit

A comfortable pack is a well fitting pack. And in order to have a well fitting pack, a properly adjusted torso and hipbelt is a must. Thule Versant packs have 12 cm of torso and 15 cm of hipbelt padding adjustment built in. Simply choose your perfect setting and go.

Customization is key

Wants, needs and preferences vary from person to person, and from environment to environment. Which is why the Thule Versant packs offer end consumers the ability to customize their pack with three different hipbelt pockets. A rolltop SafeZone keeps electronics safe from weather and bumps on the trail. A zippered pocket keeps the traditionalist happy. And a water bottle holster keeps your hydration close at hand. Or simply cut down on weight and leave all at home. The choice is yours.

Smart weatherproofing

Your pack is your workhorse. It's there for you no matter how demanding the weather. Which is why in adverse conditions, your pack needs to perform at its peak. The drop liner and ¾ raincover combine to make your pack more accessible, more durable and keep your gear drier than a traditional raincover.

+ Add to your Thule Versant

Thule VersaClick Rolltop Safezone

For the user who wants a weatherproof pocket to keep their gear safe from the elements.

Thule VersaClick Accessory Pouch

A roomy and versatile pouch that provides convenient access for everything from water bottles to sunglasses.

Hiking Backpacks

Thule Stir

Everything you need and nothing you don't

The Thule Stir series appeals to the user who embraces a "less is more" philosophy. While their needs are still demanding, these users celebrate simplicity and cherish a pack that is comfortable, lightweight and easily serves their gear on command. These packs are perfect for the minimalist looking for that lightweight "go-to" pack for day hikes and/or alpine excursions.

Easy access

The last thing you want to do is fight with your pack to access and stow gear. Which is why the Thule Stir packs have a lid that opens in one fluid motion and a convenient stretch pocket to store your phone and other essentials on the shoulder strap.

Smart weatherproofing

Your pack is your workhorse. It's there for you no matter how demanding the weather. Which is why in adverse conditions, your pack needs to perform at its peak. The drop liner and $\frac{3}{4}$ raincover combine to make your pack more accessible, more durable and keep your gear drier than a traditional raincover.

- Internal mesh pocket for easy storage
- Integrated attachment points to lash gear onto
- Breathable back panel and shoulder straps keep you cool

Hiking Backpacks Thule Capstone

A perfect fit for your hiking adventures

To truly enjoy the great outdoors, you need a comfortable pack. A perfect fit is a must. And the Thule Capstone series is designed for hikers that don't settle for anything less.

Adjust to exactly fit your body - on the go

The MicroAdjust suspension system lets you customize the pack to fit your unique profile. With no need to remove the pack - just adjust it on your back. Making sure there is a perfect fit for all, Thule Capstone packs are tailored for the subtle differences between the male and female bodies.

Use your pack in comfort

Comfort is also having a pack that lets the air flow, even on the hottest days. The Thule Capstone series has a tensioned mesh back panel for maximum breathability.

Designed for long-lasting performance

A backpack is like a travelling companion you can trust at all times. We've made our packs out of the highest quality materials that last, and for their superior lightweight durability and strength.

Tested to the limit

To make sure the Thule Capstone can endure even the toughest conditions we have put them through rigorous testing, both in our labs and in the real world. Our world-class endurance athletes, the Thule Adventure Team, test to ensure our backpacks withstand the most extreme environments. While in the Thule Test Center™, they are pushed to the limit, e.g. simulating hiking around the Earth.

Hiking Backpacks Thule Capstone

On-the-go customizable hiking pack with a perfect fit.

Thule Capstone 22L

Outfitted with a tensioned mesh back panel for maximum breathability, a quick access shove-it pocket and built in rain cover, the Thule Capstone 22L is your go to pack for afternoon mountain adventures.

FEATURES

- Tensioned mesh back panel provides unparalleled breathability, keeping you cool and dry on the trail
- Zippered pocket at the top of pack stores sunglasses and other small items
- High-visibility, removable rain cover keeps your gear dry during storms
- Hipbelt pocket stores snacks, a phone and other small items and built-in VersaClick system allows for customizable quick access
- Stretch fabric shove-it pocket provides fast access to often used gear
- Side compression straps let you cinch down your load or lash gear to the outside of the pack

Child Carrier Backpacks

Thule Sapling

Bring your most precious cargo on the trail

We want to help families experience the great outdoors together. But to have a good time, everyone needs to be comfortable. We developed the Thule Sapling series to perfectly fit both parents and the child.

Perfect fit and comfort for the child

The ergonomic seat on the Thule Sapling packs is designed to keep the child comfortable for hours on the trail. To ensure a perfect fit for the child, you can adjust the seat height and width, as well as the harness. The child's weight is evenly distributed, avoiding pressure points, thanks to the ergonomic shape of the plush seat.

Effortless changeover

The backpanel and hipbelt can be easily adjusted on the trail to make sure parents of different heights and body types can carry with comfort. The breathable, padded backpanel lets air circulate and avoids sharp pressure points.

Safety guaranteed

Carry your kids with confidence - our products can handle the toughest conditions to keep you and your children safe. At the Thule's Test Center™, we test to the highest, most rigorous standards in the industry. Confirming these world-class standards, the Thule Sapling is also tested by independent, recognized testing agencies such as TÜV.

+ Add to your Thule Sapling

Thule Sapling Child Carrier Rain Cover

Keep your child dry with the stowable Thule Sapling Child Carrier Rain Cover.

Child Carrier Backpacks

Thule Sapling Elite

A comfortable ride for both parents and kids.

Deployable sunshade keeps your child cool and protected from the harsh sun

Removable backpack to store diapers, clothes, and other essentials

Plush, height adjustable, ergonomic seat

Removable stirrups let your little one rest their legs and readjust themselves on the trail

Mirror lets you monitor your child

Two extra roomy zippered hipbelt pockets that store toys, snacks and gadgets

Dual access loading allows you to load your child from the top or side of the carrier

Load stabilizer straps allow on-the-go adjustments to the backpack's center of gravity

Adjustable back panel and hipbelt provide a perfect fit and easy transition between parents

Breathable back panel provides padding and support at critical contact points

- 210205 Slate/Cobalt

Thule Sapling Child Carrier

Thule's Sapling child carrier safely and comfortably carries your precious cargo while on the trail and effortlessly transitions between parents with simple torso and hipbelt adjustments.

FEATURES

- Fully adjustable back panel and hipbelt provide a perfect fit and comfortable carry and make the transition between parents quick and easy
- Mesh pockets, hydration reservoir sleeve and two large zippered compartments store clothes, water, diapers, rain gear, and other essentials
- Keep essentials close at hand with two roomy zippered hipbelt pockets that store toys, snacks and gadgets
- Load stabilizer straps allow on-the-go adjustments to the backpack's center of gravity by pulling the child closer to the parent for a more comfortable carry
- Deployable sunshade keeps your child cool and protected from the harsh sun
- Plush, height adjustable, ergonomic seat efficiently distributes the child's weight by providing inner thigh support

› Hydration Packs

Thule hydration packs are expertly designed for serious mountain bikers. Stay comfortable and hydrated while bringing all that you need for a day on the trail.

Hydration Packs
Thule Rail

Downhill and race ready

Constructed with a low center of gravity, stability rails and a linear-pull chest strap, the Thule Rail offers ultimate stability by eliminating movement while descending aggressively, jumping or taking sharp turns.

ReTrakt hydration system

Thule Rail integrates the unique magnetic Thule ReTrakt hose that's always right where you want it. After drinking, the ReTrakt hose returns securely to its place so you can keep your hands on the bars and your eyes on the trail. The 2.5L HydraPak reservoir includes a slide closure for easy cleaning and a locking bite valve to prevent unintended spills before or after the ride.

Prepared for anything

Easily attach any assortment of knee and elbow pads along with full-face helmet or removable chin bar to the Thule Rail. Quickly transition in and out of pads with a convenient, low-profile lashing system. Whether a race requirement or simply peace of mind on an exposed backcountry ride, the removable Koroyd spine protector in the Thule Rail 12 Pro exceeds CE certification standards for protection without weighing you down.

Hydration Packs
Thule Rail 12L Pro

This ultimate enduro-race hydration pack combines the Thule ReTrakt hose, a secure fit and a Koroyd back protector.

New

User-friendly 2.5L Hydrapak reservoir features a slide closure for easy cleaning and a locking bite valve to prevent leaks before and after your ride

Quickly store and retrieve pads, helmet or chin bar with easy-access lash points

Store jacket or extra layers under exterior compression panel

Keep tools, pumps, snacks and accessories organized in dedicated internal pockets

Easily access nutrition, clothing or tools without having to remove the pack thanks to lower-back jersey pockets

Stay visible with reflective details and a light attachment loop

Quickly store and retrieve pads, helmet or chin bar with easy-access lash points

Stay hydrated without slowing down using the hands-free ReTrakt magnetic hose return system

Superior stability for aggressive downhill riding and jumping with a secure fit. Improve bike handling and reduce muscle strain with optimal weight distribution thanks to the low center of gravity

Protect your central back and spine from impact or injury with removable, lightweight Koroyd CE certified Level 1 back protector

Hydration Packs Thule Vital

Hands-free hydration system

The Thule ReTrakt hydration hose keeps your hands on the bars and your focus on the trail as it automatically returns between sips and stays in place until you need it. Each bag comes equipped with a HydraPak reservoir to ensure you stay hydrated and maximize your performance.

Built to ride

Thule Vital Hydration Packs are constructed with a low center of gravity and optimal weight distribution to improve bike handling and reduce muscle strain. Lightweight, ventilated materials offer ultimate comfort on any terrain while unique jersey-style pockets allow quick access to items without slowing down.

Hydration Packs Thule UpTake

Hands-free hydration with Retrakt

The Thule UpTake integrates Thule's unique, magnetic ReTrakt hose that automatically returns and stays in place between sips, allowing you to keep your hands on the bars and your focus on the trail. The included Hydrapak reservoir is designed with a slide closure, making it incredibly easy to clean between rides and a locking bite valve to prevent leaks when not in use.

Streamlined versatility

With clean design aesthetic, organization pockets, and optimal storage, the Thule UpTake is perfect for biking, hiking or hitting the slopes. Convenient side pockets offer quick access to smaller items, while dedicated internal pockets are perfect for tools and extra layers.

Hydration Packs Thule UpTake Youth 6L

A versatile youth hydration pack with a magnetic, hands-free return hose, practical cargo storage and included Hydrapak reservoir.

Ski and Snowboard Backpacks

Thule Upslope – Removable Airbag 3.0 Ready

Access gear without slowing down

Easily access your most used gear while the pack stays on your back. Versatile helmet carry options, dedicated mountain tool storage and a series of adjustable daisy chain loops allow you to reach equipment quickly, so that the only reason you'll need to stop is to take in the view.

It's all in the details

From base to summit and back again, you can rely on Thule's expertly designed details to ease the journey. Carry your skis or snowboard using an adjustable loop that fits a wide range of ski and board widths. Oversized pockets wrap around and hug the body for an incredibly comfortable and stable ride. An insulated hydration sleeve helps prevent your hose from freezing and a compression system keeps your gear close to your body for the downhill.

Ultimate safety and flexibility

Anchored in safety, the Thule Upslope Collection comes complete with dedicated snow safety tool storage. The 25L and 35L backpacks are also airbag ready and can be used with or without the Mammut Removable Airbag 3.0® System for complete flexibility.

Add to your Thule Upslope – Removable Airbag 3.0 Ready

Ski, Boot and Snowboard Bags
Thule RoundTrip

Building an even better case

The Thule RoundTrip Collection comes with the same durable, dependable and functional construction as the current generation, but offers enhanced features and a fresh design. The snowboard and ski rollers have added structural reinforcements to diminish any sagging. Other upgrades include an oversized SafeZone compartment on the boot backpack and an S-shaped zipper that coils around the ski and snowboard bags, simplifying visibility and access to your gear.

Everything in its place

Dedicated pole sleeves, ski sleeves, accessory pockets and a spacious, crush-proof SafeZone keep your gear organized, separated and protected so you can worry more about snow conditions and less about where your gear is.

Protect snowsport gear and stay organized

Thule's innovative ski and snowboard sleeves are a classic 3-in-1 solution. They slide over tips and tails to provide added protection for your equipment, prevent your delicate outerwear from getting cut by sharp edges and keep your gear organized in transit and at your destination.

Rugged and dependable

Durability is the cornerstone of the Thule RoundTrip Collection. With a robust 600D polyester main fabric, thick padding, and YKK zippers, these bags are built to last.

Thule Chasm Collection Thule Chasm

The ideal travel companion

Thule Chasm is the ideal companion on any travel adventure – big or small. Durable, weather-resistant, and with smart features like the wide mouth opening, side access, and removable padded straps, Thule Chasm makes it easy to travel on your own terms – and still bring all the gear you'll need.

Available in four sizes, ranging from small (40 liters) to X-large (130 liters), and several attractive colors, Thule Chasm is a versatile, robust and stylish bag that will hold just about anything.

Easy to carry

When you're travelling, you want to live in the moment. Thule Chasm gives you the flexibility of a conventional duffel on your shoulder or as a backpack when you want to head off on an adventure. The padded straps are quick to remove and adjust depending on your need.

What's more, the daisy chain lash points even make it possible to attach the duffel to a roof rack or to add gear to the bag.

Easy to pack and access your gear

The oversized, wide mouth opening and practical side access make Thule Chasm easy to pack and easy to get to your gear. There is a lockable, zippered side pocket plus convenient interior mesh pockets for organizing smaller items and making them even easier to reach. And rest assured that your gear is always safe and secure – Thule Chasm is made of a durable waterproof tarpaulin fabric that protects contents from the elements and also folds for easy storage.

› The Man and the Mountain

When we at Thule started to develop a series of hiking and trekking backpacks seven years ago, we set out to find ambassadors who would not only give us great user input to the packs, but also share our values. The search brought us to the legendary mountain climber Apa Sherpa from Nepal.

Apa Sherpa is a remarkable mountain guide who has taken 21 successful expeditions to the summit of Mount Everest without losing a single life. Staying true to his mantra of “Everest will always be there”, Apa has always had a very strong commitment to safety.

Coming from the Nepalese village of Thame, it was almost inevitable that Apa would become a high-altitude sherpa on Mount Everest. He began carrying loads on the lower parts of the mountain in 1988 and reached the summit for the first time on May 10, 1990. Today, he is a world record holder for most Mount Everest summits.

In addition to his mountaineering achievements, Apa is active in climate change education and the conservation of Mount Everest through the Eco Everest clean-up expeditions, which have removed around 14,000 kg of debris and waste from the mountain. Apa is a Climate-for-Life ambassador and has received the World Wildlife Foundation’s prestigious “Leaders for a Living Planet” award.

If Apa could have planned his life differently, though, he says that he would gladly have given up his world record for a good education and a career as a medical doctor. That is why education for the children of Nepal is Apa’s top priority. In 2010, Apa founded the Apa Sherpa Foundation with the help of his best friend Jerry Mika. The Apa Sherpa Foundation works for the children of Nepal’s right to an education.

At Thule we are proud to support The Apa Sherpa Foundation with school-lunch programs and other activities for the kids in Thame. In addition, we have enabled the award-winning Canadian adventure film crew Sherpas Cinema to produce a movie about Apa and his mission, “Loved by All, the Story of Apa Sherpa”, which premiered at the Banff Mountain Film Festival 2017.

APA SHERPA IN SHORT

1988 Began carrying loads on Everest	2010 Founded the Apa Sherpa Foundation
1990 Reached the summit for the first time	2013 Received an honorary doctorate
21 Apa has reached the summit 21 times	14,000 kg of garbage has been removed from the mountain by the Eco Everest clean up expeditions
